NRC ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
TO MEET AUGUST 8-10

The Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS) has scheduled a technical meeting August 8-10 in Rockville, Maryland.

The meeting, which is open to the public, will be held in Conference Room 2B3 in the NRC's Two White Flint North Building at 11545 Rockville Pike.

Although meetings of the ACRS are open to the public, they are not part of the NRC's public hearing process. The ACRS, an advisory group to the Commission, conducts independent, highly technical reviews of safety considerations related to nuclear facilities. While anyone may attend, the committee will consider only oral or written statements arranged in advance and limited to specific matters set forth in a Notice of Meeting published in the July 3 edition of the Federal Register.

The meeting may include closed sessions, if required, to discuss proprietary information.
