NRC ISSUES ANNUAL ASSESSMENTS FOR ALL NUCLEAR PLANTS

The U.S. Nuclear Regulatory Commission has issued annual assessment letters for all 103 operating nuclear power plants and posted them to its web site.

Every six months each plant receives either a mid-cycle review letter or an annual assessment letter along with an NRC inspection plan. Updated information on plant performance is posted to the NRC web site every quarter. The next mid-cycle assessment letters will be issued in September.

The assessment letters sent to each licensee are available on the NRC web site at: <http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/index.html> and through ADAMS, the Agencywide Documents Access and Management System. Help in using ADAMS is available from the NRC Public Document Room by calling (301) 415-4737.

Public meetings at each plant are planned. Details of the meetings, which will be open to the public, will be announced as they are scheduled.
