NRC TO MEET WITH CP&L OFFICIALS TO DISCUSS SAFETY PERFORMANCE AT HARRIS NUCLEAR POWER PLANT

The U.S. Nuclear Regulatory Commission staff will meet with Carolina Power & Light Company officials on Thursday, April 11, to discuss the results of NRC's annual assessment of safety performance at the Harris nuclear power plant, located near New Hill, North Carolina.

The meeting will be held at 1:00 p.m. in the Harris Visitor Center Board Room. The public is invited to observe the meeting, and NRC officials will be available before the meeting is adjourned to answer any questions.

A letter sent from the NRC's Regional Administrator to CP&L, which addresses plant safety performance during the previous year and forms the basis of the meeting discussion, is available from Region II Public Affairs or on the NRC web site at
