The U.S. Nuclear Regulatory Commission staff will meet with Progress Energy/Florida Power officials on Thursday, April 11, to discuss the results of NRC's annual assessment of safety performance at the Crystal River nuclear power plant, located in Crystal River, Florida.

The meeting will be held at 1:00 p.m. at the Crystal River plant Training Center on Venable Street in Crystal River. The public is invited to observe the meeting, and NRC officials will be available before the meeting is adjourned to answer any questions.
