The U.S. Nuclear Regulatory Commission staff will meet with representatives of Entergy Operations, Inc. on Tuesday, April 9, to discuss the results of the agency's annual assessment of safety performance at the River Bend nuclear power plant. The facility is located near St. Francisville, La., and is operated by Entergy.

The meeting, which will be open to the public for observation, is scheduled to begin at 7 p.m. at Best Western Hotel on the Lake, St. Francisville. NRC staff will be available before the meeting is adjourned to answer any questions from the public.
