## **NRC TO MEET WITH SCE TO DISCUSS SAFETY PERFORMANCE AT SONGS**

The U.S. Nuclear Regulatory Commission staff will meet with representatives of Southern California Edison Co. on Tuesday, April 16, to discuss the results of the agency's annual assessment of safety performance at San Onofre Nuclear Generating Station. The facility, which includes two operating reactors, is located near San Clemente, Calif., and is operated by SCE.

The meeting, which will be open to the public for observation, is scheduled to begin at 7 p.m. at San Clemente Inn, 2600 Avenida del Presidente, San Clemente. NRC staff will be available before the meeting is adjourned to answer any questions from the public.

A letter sent from NRC Region IV to SCE addresses plant performance during the period April 1 to December 31, 2001, and will serve as the basis for the meeting discussion.
