

January 9, 2003

Mr. Roger L. Suppes, Chief
Bureau of Radiation Protection
Ohio Department of Health
P.O. Box 118
Columbus, OH 43266-0118

Dear Mr. Suppes:

As requested, we have reviewed the final regulations in Chapters 3701:1-48, "Radioactive Material Standards - Industrial Radiographers," 3701:1-52, "Radioactive Material Standards - Irradiators," and 3701:1-49 "Radioactive Material Standards - Well Logging," received by this office on November 14, 2002. The effective date for the three final regulations is October 20, 2002. The final regulations will replace the referenced NRC regulations currently in place. The final regulations are in response to the amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 34, 36 and 39. We discussed our review of the regulations with Mike Snee, of your staff, on January 2, 2003.

As a result of our review, we have one comment and four editorial suggestions identified in the enclosure. These changes may be incorporated during the next scheduled State revision of these rules. Please note that we have limited our review to regulations required for compatibility and/or health and safety. However, we have determined that if your regulations were adopted incorporating the comments and without other significant change, they would meet the compatibility and health and safety categories established in Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the comments are incorporated into your final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations* (November 10, 1998), please highlight any changes and send one copy to STP.

The SRS Data Sheet summarizes our knowledge of the status of other Ohio regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrdo.org/nrc/rulemaking.htm>

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or Kevin Hsueh of my staff at (301) 415-2598 or E-mail KPH@NRC.GOV.

Sincerely,

WRA BY JOSEPHINE M. PICCONE

Josephine M. Piccone, Deputy Director
Office of State and Tribal Programs

**COMMENTS ON FINAL OHIO REGULATIONS
AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES**

State Regulation	NRC Regulation	RATS ID	Category	Subject and Comments
1-48-01 (C)	34.3	1997-5	B	<p>Definition of “Certifying Entity”</p> <p>The definition is missing a portion regarding an Agreement State being a certifying entity.</p> <p>“means an independent certifying organization meeting the requirements in appendix A of rule 3701:1-48-16...<u>or an Agreement State meeting the requirements in appendix A, parts II and III of rule 3701:1-48-16.</u></p> <p>The State needs to include this part of the definition.</p>

Editorial Suggestions

1. In 1-48-23(K)(3), the last sentence is the same as that in (K)(2) and should be deleted.
2. In 1-52-16(B)(6), the seismic requirements should be in 10 CFR 36.39(j) instead of 10 CFR 39.39(j).
3. In 1-48-05(E), the paragraph, “Notwithstanding paragraph (A)(1) of this rule, equipment used in industrial radiographic operations must meet the requirements as specified in 10 C.F.R. 34.20 (e) as specified in appendix A to this rule, if...” should be changed to “Notwithstanding paragraph (A)(1) of this rule, equipment used in industrial radiographic operations need not comply with the requirement specified in 10 C.F.R. 34.20 (e) as specified in appendix A to this rule, if...”
4. In 1-52-16, the State refers to an Appendix “A”. There is no appendix “A” to this section. There is an attached section, which is a copy of the NRC rules with highlighted sections, but it is not labeled as Appendix “A”. It is suggested that the State edit this material to create an appendix A that contains all of the information the State intends to use.

STATE REGULATION STATUS

State: Ohio

**Eight amendments reviewed are identified by a ★
at the beginning of the equivalent NRC regulation.**
