Dear Ms. Semerena:

We have reviewed the final revisions to the Nebraska Regulations for Control of Radiation-Ionizing (Title 180), Nebraska Administrative Code, received by our office on May 29, 2003. In addition, we reviewed your responses to our letters, dated October 18, 2002, which contained our comment on your proposed version of these rules. These regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Part 20, 30, 31, 34, 36, and 39. We discussed our review of the regulations with Ms. Trudy Hill on June 5, 2003.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. As a result of the NRC review, we have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Nebraska regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or John Zabko of my staff at (301)415-2308 or JGZ@NRC.GOV.

Sincerely,
