TRAINING: No special training requirements have been identified for any documents issued with this change notice.

REMARKS: IMC 0610 (Nuclear Material Safety and Safeguards Inspection Reports) This document is being revised to be a stand alone document for guidance on preparing inspection reports for NMSS inspections. The previous 0610 includes guidance as used for both reactors and NMSS inspection reports. NRR has prepared a revised chapter 0612 that includes only reactor inspections.

DISTRIBUTION: Standard
