Dear Mr. Marshall:

We have reviewed the final revisions to the Nevada Administrative Code (NAC section 459), received by our office on April 5, 2005. These regulations were reviewed by comparison to the equivalent NRC rules in 10 CFR Parts 20, 30, 40, and 70 and the requirements of the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulation with Larry Boschult on May 17, 2005.

As a result of our review, we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Nevada regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Nevada regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comment and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Nevada regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments of the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hsr.doe.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comment, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or John Zabko of my staff at (301) 415-2308 or JGZ@NRC.GOV.

Sincerely,
