Robert E. Owen, Chief  
Bureau of Radiation Protection  
Ohio Department of Health  
P.O. Box 118  
Columbus, OH 43216-0118

Dear Mr. Owen:

By letter dated August 9, 2004, we sent you the results of our review of the final changes to the Ohio regulations which were submitted to the NRC by letter dated July 1, 2004. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 30, 31, and 32, and the requirements of the General License (GL) amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. The review we conducted omitted a specific review of Sections 10 CFR Parts 31.5 and 31.6. The text of these sections was not revised by the GL amendment, but the compatibility designations were changed from Compatibility Categories C and D respectively, to Category B.

As noted in All Agreement States letter STP-05-072, dated September 28, 2005, NRC staff will continue to review Agreement State GL Device proposed and final rules but will hold in abeyance any determination on those rules and compatibility of those rules, if the Agreement State has the essential elements of the NRC's rule and is more restrictive than the NRC's rule. For Agreement States without a GL Device rule or a GL Device rule less restrictive than the NRC rules, the staff will factor this determination into results of the NRC's review of the State's proposed and final rules and the compatibility findings during Integrated Materials Performance Evaluation Program (IMPEP) reviews.

We discussed our re-review of the GL Amendment with Michael Snee on August 23, 2006. Although we had no comments for the 2001-1 amendment stated in the August 9, 2004 letter, as a result of our re-review against the Compatibility Category B designation, we have three comments that have been identified in the enclosure. Comment 3 indicates that the State's regulation is more restrictive than the NRC's regulation, and there is no corrective action required for this comment at this point. However, Comments 1 and 2 indicate that the State's regulations are less restrictive than the NRC's regulations, and they need to be addressed in the State's future rulemaking process. We request that when a final amended version of Ohio regulations are adopted and published in response to our comments, that a copy of the "as published" regulations be provided to us for review as requested in STP Procedure SA-201, Review of State Regulatory Requirements.

Please note that we have limited our review to regulations required for compatibility and/or health and safety. The SRS Data Sheet summarizes our knowledge of the status of other Ohio regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hsrp.doe.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Ms. Jennifer Tobin at (301) 415-2328 or by e-mail at [JCT1@nrc.gov](mailto:JCT1@nrc.gov).

Sincerely,

Dennis K. Rathbun, Deputy Director

1	3701: 1-46- 05	31.5(c)(8)(ii) )	2001-1	B	<p><b>Certain detecting, measuring, gauging, or controlling devices and certain devices for producing light or an ionized atmosphere</b></p> <p>The NRC requires a report to be furnished within 30 days after the transfer of a device to a specific licensee or export. However, Ohio has omitted the requirement of reporting such a device within 30 days after it is exported.</p> <p>Also, NRC does not contain provision that relieves a licensee from reporting a device that is transferred to a specific licensee for a replacement of the same model. However, Ohio's final regulations do not require report if the device is transferred to the specific licensee for a replacement of the same model.</p> <p>Ohio needs to add the requirement of reporting a device that is exported to 3701:1-46-05(C)(8)(b), and delete the phrase "a report is not required if the device is transferred to the specific licensee for a replacement of the same model." from its regulations, to meet the Compatibility Category B designation assigned to 10 CFR 31.5(c)(8)(ii).</p>
