NRC TO HOLD PUBLIC MEETING TO DISCUSS RANCHO SECO LICENSE TERMINATION PLAN

The U.S. Nuclear Regulatory Commission will hold a public meeting in Rancho Cordova, Calif., on Nov. 14 to discuss the license termination plan for the Rancho Seco nuclear plant. The plant, located near Herald, Calif., permanently ceased operation in 1989.

The meeting will begin at 7 p.m. in a meeting room at the Marriott Courtyard Hotel, 10683 White Rock Road, Rancho Cordova. The NRC and the owner of the plant, the Sacramento Municipal Utility District, will make short presentations on the license termination plan for the facility, answer questions and accept public comments.

The license termination plan is available at the NRC's Public Document Room or electronically through the Agencywide Documents Access and Management System (ADAMS) using accession number ML061460053. Help in using ADAMS is available by calling 1-800-397-4209.
