Dear Mr. Robertson:

We have reviewed the final revisions to the Washington Air Emissions Regulations WAC 246-247 and WAC 246-248, received by our office on October 20, 2006. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Part 20 and the requirements of one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Al Conklin on November 21, 2006.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

Please note we previously reviewed these regulations in final form with no comments, on October 25, 1999. Since the current review is the result of a restructuring of the regulations and we have no comments, we will not need to re-review these regulations unless additional changes occur before the regulations are issued. If there are any new changes to these regulations we ask that you provide a copy of the "as published" regulations for our review, in accordance with the Office of State and Tribal Programs (STP) Procedure SA- 201.

The SRS Data Sheet summarizes our knowledge of the status of other Washington regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 (email: kxs@nrc.gov) or Randy Erickson at (817) 860-8143 (e-mail: rre@nrc.gov).
