and Rulemaking Branch
Waste Confidence Directorate
Office of Nuclear Material Safety
and Safeguards

SUBJECT: SUMMARY OF OCTOBER 1 PUBLIC MEETING IN ROCKVILLE,
MARYLAND, TO RECEIVE COMMENTS ON THE WASTE
CONFIDENCE DRAFT GENERIC ENVIRONMENTAL IMPACT
STATEMENT AND PROPOSED RULE

On Tuesday, October 1, 2013, members of the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 3 public meeting at NRC headquarters in Rockville, Maryland. The purpose of the meeting was to provide an overview of the Waste Confidence draft generic environmental impact statement (DGEIS) and proposed rule, and to accept public comments on the documents. Participants had an opportunity to ask questions about the NRC's environmental review and rulemaking process. The meeting was viewable online via live webcast, and a moderated teleconference line was available for remote participants to ask questions and present comments.

The NRC conducted an open house beginning at 1:00 p.m. EDT where members of the public could meet informally with NRC staff and ask questions related to the DGEIS and proposed rule. The public meeting began at 2:00 p.m. EDT and concluded at 5:15 p.m. EDT. The meeting began with an introduction of NRC staff and a review of meeting ground rules, followed by a presentation on the Waste Confidence DGEIS and proposed rule. The majority of the meeting was the presentation of comments from members of the public.

The staff's slide presentation is available in the NRC's Agencywide Document Management and Access System (ADAMS) under Accession No. ML13273A339. The transcript for the meeting is available in ADAMS under Accession No. ML13277A455. NRC handouts and posters displayed during the open house can be accessed at ML13279A003 and ML13279A004, respectively.

The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing documents located in ADAMS, should contact the NRC's Public Document Room reference staff at 1-800-397-4737, or via e-mail at pdr@nrc.gov.

Video archive of the meeting can be found on the NRC's website at <http://video.nrc.gov>, is dated October 1, 2013, and is titled, "Public Meeting to Receive Comments on the Waste Confidence Draft Generic Environmental Impact Statement and Proposed Rule." For convenience, web links to the staff's presentation materials, the video archive, and the meeting transcript are also available on the Waste Confidence Directorate's website at <http://www.nrc.gov/waste/spent-fuel-storage/wcd/pub-involve.html>.

Approximately 125 people participated in the meeting, both in-person and remotely using the teleconference line. Meeting participants included members of the public, representatives from the U.S. Department of Energy, representatives of the Prairie Island Indian Community, and industry and public advocacy groups. A list of meeting participants is included as Attachment 1.

Questions asked during the question and answer period included how the NRC calculated the risk of spent fuel pool fires and what types of spent nuclear fuel are considered in the DGEIS. Topics and concerns discussed during the public comment period included: the definition of Waste Confidence; whether the proposed rule and DGEIS take into account the political and social acceptance of siting a permanent geologic repository; the NRC's assumptions regarding the timing of repository availability; support for continuing the NRC's current halt on licensing and relicensing; support for phasing out nuclear power and replacing it with renewable energy and energy efficiency; general opposition to nuclear power; concern that the DGEIS does not fully account for the costs, risks, and impacts of storing spent nuclear fuel; the DGEIS should consider impacts of the entire nuclear cycle; support for expedited transfer of spent fuel from fuel pools to hardened onsite storage (HOSS); concerns about accidents similar to Fukushima; the NRC's assumption in the DGEIS that dry casks would be replaced every 100 years; the cost analysis of alternatives in the DGEIS; a critique of the purpose and need of the DGEIS; concern that the NRC is rushing the environmental review and rulemaking process; concern about cyber attacks on spent fuel storage; opposition to the NRC's generic approach to the rulemaking and support for analyzing Waste Confidence on a site-specific basis; support for analyzing "worst case scenarios," especially in the context of accidents; critique of the spent fuel pool fire analysis in the DGEIS; support for the timely completion of the Waste Confidence rulemaking; and the NRC's process of reviewing comments and finalizing the GEIS.

There were also comments and questions about how the government shutdown would impact the upcoming Waste Confidence public meetings and the public comment period. Due to a lack of an appropriation and the government shutdown, to date, the NRC has postponed the following Waste Confidence public meetings: October 7 in San Luis Obispo, California; October 9 in Carlsbad, California; October 15 in Perrysburg, Ohio; October 17 in Minnetonka, Minnesota, and October 24 in Oak Brook, Illinois. Other meetings scheduled for future dates are subject to postponement if the shutdown continues. The Waste Confidence Directorate will update its Web site at <http://www.nrc.gov/waste/spent-fuel-storage/wcd.html>, the NRC's Public Meeting Web site at <http://meetings.nrc.gov/pmns/mtg>, and will send e-mails from WCO Outreach@nrc.gov or OPA.Resources@nrc.gov regarding the status of the remaining public meetings and new dates for postponed meetings.

List of Attendees
Public Meeting to Receive Comments on the
Waste Confidence DGEIS and Proposed Rule
Rockville, MD - October 1, 2013 - 2:00 – 5:15 PM EDT

	First Name	Last Name	Organization
1	Kensaku	Arai	Japan Nuclear Energy Safety Organization
2	Dean	Baker	Tennessee Valley Authority
3	Sara	Barczak	Southern Alliance for Clean Energy
4	Michael	Benjamin	Share New York
5	David	Blee	U.S. Nuclear Infrastructure Council
6	Jerry	Bonanno	Nuclear Energy Institute
7	Rick	Buckley	Entergy Nuclear, Jackson, MS
8	Andrew	Burgess	Ameren Missouri
9	Michael	Callahan	Governmental Strategies Inc.
10	Chip	Cameron	Facilitator
11	Mike	Carberry	Sierra Club Nuclear Free Campaign
12	Lora	Chamberlain	Nuclear Free Illinois
13	Wei-Wu	Chao	Atomic Energy Council
14	Christopher	Charles	Nuclear Energy Institute
15	Jeremy	Cohn	Mitsubishi Nuclear Energy Systems
16	Christopher	Cummings	Nuclear Energy Institute
17	Diane	D'Arrigo	Nuclear Information Resource Service
18	Ed	Davis	Pegasus Group
19	David	Echel	Private Citizen
20	Richard	Emch	ADSTM
21	Allison	Fisher	Public Citizen
22	Carol	Gantt	Private Citizen
23	Ellen	Ginsberg	Nuclear Energy Institute
24	Joyce	Good	Nuclear Energy Information Service
25	Patrick	Gorman	Department of Energy
26	Erica	Gray	Private Citizen
27	Doug	Guarino	National Journal Group
28	Jeffry	Guido	UA MD Pipe Trades Association
29	Eric	Harvey	ERIN Engineering
