SUBJECT: SUMMARY OF DECEMBER 2 PUBLIC MEETING IN PERRYSBURG,
OHIO, TO RECEIVE COMMENTS ON THE WASTE CONFIDENCE
DRAFT GENERIC ENVIRONMENTAL IMPACT STATEMENT AND
PROPOSED RULE

On Monday, December 2, 2013, members of the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 3 public meeting at the Hilton Garden Inn Toledo/Perrysburg in Perrysburg, Ohio. The purpose of the meeting was to provide an overview of the Waste Confidence draft generic environmental impact statement (DGEIS) and proposed rule, and to accept public comments on the documents. Participants also had an opportunity to ask questions about the NRC's environmental review and rulemaking process.

The NRC conducted an open house beginning at 6:00 p.m. EST where members of the public met informally with NRC staff and asked questions related to the DGEIS and proposed rule. The public meeting began at 7:00 p.m. EST and concluded at 10:26 p.m. EST. The meeting began with an introduction of NRC staff and a review of meeting ground rules, followed by a short presentation on the Waste Confidence DGEIS and proposed rule. The majority of the meeting was dedicated to receiving comments from members of the public.

The staff's slide presentation is available in the NRC's Agencywide Document Management and Access System (ADAMS) under Accession No. ML13273A339. The transcript for the meeting is available in ADAMS under Accession No. ML13340A572. NRC handouts available at the meeting can be accessed at ML13319A111, ML13319A108, and ML13319A110. Posters displayed during the open house can be accessed at ML13279A004. The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing documents

located in ADAMS, should contact the NRC's Public Document Room reference staff at 1-800-397-4209, or via e-mail at pdr@nrc.gov. For convenience, web links to the staff's presentation materials and the meeting transcript are also available on the Waste Confidence Directorate's website at <http://www.nrc.gov/waste/spent-fuel-storage/wcd/pub-involve.html>.

Approximately 128 people attended the meeting and 45 provided comments. Meeting attendees included members of the public, Ottawa County Commissioners, representatives from the Michigan Department of Environmental Quality and the Ohio Department of Health, a staff member from Representative Bob Latta's office (R – Bowling Green), and members of industry and public advocacy groups. A list of meeting attendees is included as Attachment 1.

One question was asked by an attendee during the question and answer period concerning the history of the NRC. Topics and concerns raised during the public comment portion of the meeting included: general opposition to nuclear power and support for renewable energy; calls to stop making additional nuclear waste; support for the no-action alternative and continuing the moratorium on issuance of licenses for facilities that relied on the Waste Confidence Rule; opposition to the Waste Confidence rulemaking; the public comment period; input on the four additional issues for public comment in the proposed rule *Federal Register* notice; critique of assumptions in the DGEIS regarding institutional controls; concern about accidents, including those caused by flooding on the Great Lakes; concern about the safety of dry casks; Fukushima; General Electric Mark I boiling water reactors; spent fuel pool density; climate change impacts on the safe storage of spent fuel; issues specific to local plants including Davis Besse, Fermi, Perry, and Palisades; opposition to Fermi Unit 3; Lake Michigan water quality; tritium; health effects of radiation; NRC oversight; the cost of nuclear power; thorium reactors; proposed Canadian low-level waste disposal near the Lake Huron; support for nuclear power in light of climate change concerns; support for the continued safe storage of spent fuel; support for a permanent geologic repository; and support for the DGEIS, proposed rule, and the NRC's 24-month timeline.
