

UNITED STATES  
**NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

November 6, 2015

Ms. Cynthia L. Becker, Chief  
Bureau of Radiation Control  
Florida Department of Health  
4052 Bald Cypress Way, Bin C21  
Tallahassee, FL 32399-1741

Dear Ms. Becker:

We have reviewed the proposed License Condition to address implementation of 10 Code of Federal Regulation (CFR) Part 37, "Physical Protection of Byproduct Material," received by our office on September 30, 2015. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Mike Stevens on November 4, 2015.

As a result of our review, we have two comments related to compatibility that have been identified in the enclosure. While we note that these comments are not related to Part 37, they are part of RATS ID 2013-1 and are therefore included for completeness. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Florida regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Florida regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Material Safety, State, Tribal, and Rulemaking Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Florida regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

Additionally, please note that NRC has previously issued certain Security Orders to four Florida licensees. We have not listed the names of the licensees in this letter because that information is Official Use Only and cannot be made publicly available. Because the NRC-issued Orders are still legally binding, they must be rescinded by NRC concurrent with State's promulgation of

final regulations. Accordingly, close coordination is needed between NRC and your office to ensure there are no conflicts, duplications, or gaps regarding the security-related requirements for these licensees. Please contact Adelaide Giantelli, Source Management and Protection Branch Chief, in NMSS ([Adelaide.Giantelli@nrc.gov](mailto:Adelaide.Giantelli@nrc.gov)) for information regarding the affected State licensees and for coordination with rescission of the NRC-issued Orders for these licensees after State's promulgation and NRC's review of the final Florida regulations.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at (610) 337-6942 ([Michelle.beardsley@nrc.gov](mailto:Michelle.beardsley@nrc.gov)) or Stephen Poy at (301) 415-7135 ([Stephen.poy@nrc.gov](mailto:Stephen.poy@nrc.gov)).

Sincerely,

*/RA/*
