TRAINING: The following training is required for documents in this Change Notice: Review of PCA/DIR process and changes to IMC as part of available in-person opportunities or via a conference bridge.

REMARKS: IMC 1601, "Communication and Coordination Protocol for Determining the Status of Offsite Emergency Preparedness," has been revised to add guidance to clarify: inter-agency communications and coordination at the regional level, NRC authorities regarding precluding reactor start-up and requiring shutdown following natural disaster, and resolution of concerns regarding electrical grid stability. Changes also made to better align IMC with FEMA SOG and NRC IRP-240.
