**Staff Issue Risk-Informed Completion Time Amendments for Palo Verde Units 1, 2, and 3**

On May 29, 2019, the staff issued license amendments to Palo Verde to permit the use of risk-informed completion times (Initiative 4b) (ADAMS Accession No. ML19085A525). These amendments modified selected technical specification action statements to permit extending the completion times, provided risk is assessed and managed by the licensee as described in NEI 06-09, Revision 0-A. The review was designated as complex and exempted from the 2-year metric.

**Staff Issue Information Notice on Emergency Diesel Generator Excitation System Diode Failures**

On June 3, 2019, the staff issued Information Notice (IN) 2019-02, "Emergency Diesel Generator Excitation System Diode Failures" (ADAMS Accession No. ML18250A175). The purpose of this IN is to alert licensees about recent operating experience with regard to emergency diesel generator (EDG) excitation system diode failures. The failure of EDG excitation system diodes may cause affected EDGs not to be able to operate for their full mission times following a loss of offsite power event. This IN requires no action or written response on the part of an addressee.

**Staff Issue Information Notice on Inadequate Implementation of the Clearance Processes**

On June 3, 2019, the staff issued Information Notice 2019-03, "Inadequate Implementation of Clearance Processes Results in Configuration Control Issues" (ADAMS Accession No. ML19084A081). The purpose of this IN is to inform addressees of several recent events in which operators failed to ensure the proper implementation of plant processes governing clearance activities that resulted in configuration control issues that affected the operability of safety related systems. This IN requires no action or written response on the part of an addressee.
