

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 2, 2020

Judith A. Schuerman, Ph.D., Manager  
Radiation Section  
Emergency and Radiological Services Division  
Louisiana Department of Environmental Quality  
P.O. Box 4312  
Baton Rouge, LA 70821-4312

Dear Dr. Schuerman:

We have reviewed the final revisions to the Louisiana Department of Environmental Quality rules (equivalent to 10 CFR Part 34) in the Louisiana Administrative Code, Title 33, Part XV, Radiation Protection, received by our office on January 16, 2020. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on February 13, 2020.

As a result of our review, we have ten comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that if these regulations are revised, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when you revise your regulations to address our comments, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the location of any changes made by Louisiana, in response to our comments, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS. The SRS Data Sheet summarizes our knowledge of the status of other Louisiana regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at 301-415-0275.

Sincerely,

**/RALCuadrado for/**

Kevin Williams, Deputy Director  
Division of Materials Safety, Security, State  
and Tribal Programs  
Office of Nuclear Material Safety  
and Safeguards

## COMPATIBILITY COMMENTS ON LOUISIANA FINAL REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	§ 503	34.3	N/A	C	<p><b>Definition: Radiographer</b></p> <p>Louisiana’s definition of “Radiographer” omits the phrase, “personally supervises industrial radiographic operations.”</p> <p>Louisiana needs to add the phrase indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.3, Definition: Radiographer.</p>
2	§ 503	34.3	N/A	B	<p><b>Definition: Independent certifying agency</b></p> <p>Louisiana omits a definition of “Independent certifying agency” from the definitions in § 503.</p> <p>Louisiana needs to add this definition to meet the Compatibility Category B designation assigned to 10 CFR 34.3, Definition: Independent certifying agency.</p>
3	§ 503	34.3	N/A	N/A	<p><b>Definition: Shielded room</b></p> <p>Louisiana adds a definition of “shielded room” which is not found in 10 CFR 34.3. This definition could be interpreted to be less restrictive since it does not specify what type of operations/facility/storage, it can be used for regarding industrial radiography. For example, if this room is to be used to conduct radiographic exposures, it should require that all safety equipment, e.g., locks, alarms be present.</p> <p>Louisiana needs to delete this definition from their regulations to meet the compatibility requirements of 10 CFR Part 34.</p>

Enclosure

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
4	§ 542	34.35	N/A	B	<p><b>Labeling, storage, and transportation</b></p> <p>Louisiana's regulations contain the following additional requirement which is not included in 10 CFR 34.35, and is more restrictive than NRC regulations:</p> <p>“Radiographic exposure devices, source changers, or transport containers that contain radioactive material shall not be stored in residential locations. This requirement does not apply to storage of radioactive material in a vehicle in transit for use at temporary job sites, if the licensee complies with Subsection C of this Section, and if the vehicle does not constitute a permanent storage location as described in Subsection D of this Section.”</p> <p>Louisiana needs to remove this additional requirement to meet the Compatibility Category B designation assigned to 10 CFR 34.35.</p>

Enclosure

5	§ 544 (C)	34.27(c)(1)	N/A	C	<p><b>Leak testing and replacement of sealed sources</b></p> <p>Louisiana omits an equivalent provision to 10 CFR 34.27(c)(1) which states, “The leak testing of the source must be performed using a method approved by the Commission or by an Agreement State.”</p> <p>Louisiana needs to add an equivalent provision as indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.27(c)(1).</p>
6	§ 545 (A)	34.69	N/A	C	<p><b>Records of quarterly inventory</b></p> <p>Louisiana omits the phrase, “number of becquerels (curies) or mass (for du)” from their equivalent regulations for records of quarterly inventories.</p> <p>Louisiana needs to insert the phrase indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.69.</p>
7	§ 577 (B), (H) (4), (D), and (G)	34.83(c)	NA	C	<p><b>Records of personnel monitoring procedures</b></p> <p>Louisiana omits an equivalent provision to 10 CFR 34.83(c) which states, “(c) Personnel dosimeter results received from the accredited NVLAP processor until the Commission terminates the license.”</p> <p>Louisiana needs to add an equivalent provision as indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.83(c).</p>
8	§ 588 (A) (1-11)	34.89	NA	C	<p><b>Location of documents and records</b></p> <p>Louisiana omits an equivalent</p>

					<p>provision to 10 CFR 34.89(b)(9) which states, "Evidence of the latest calibrations of alarm ratemeters and operability checks of pocket dosimeters and/or electronic personal dosimeters as required by § 34.83."</p> <p>Louisiana needs to add an equivalent provision as indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.89(b)(9).</p>
9	§ 551	34.101	N/A	C	<p><b>Notifications</b></p> <p>Louisiana regulations state, "The licensee or registrant shall include the following information in each report required by Subsection D of this Section and...". The correct reference should be to "Subsection A".</p> <p>Louisiana needs to correct the reference as indicated above to meet the Compatibility Category C designation assigned to 10 CFR 34.101.</p>
10	Appendix A, B and C	10 CFR Part 34, Appendix A	N/A	B	<p><b>Radiographer certification</b></p> <p>Louisiana regulations contain equivalent provisions to 10 CFR Part 34, Appendix A; however Louisiana references 10 CFR 34 Appendix A, in their definition of "Certifying Entity." This is duplicative and could contain conflicting requirements. Louisiana needs to either adopt 10 CFR Part 34, Appendix A by reference, or they need to reference their equivalent regulations, i.e., Appendices A, B, and C in their definition of "Certifying Entity."</p> <p>Louisiana needs to make the change indicated above to meet the Compatibility Category B designation</p>

					assigned to 10 CFR Part 34, Appendix A.
