NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

November 17, 2020

Mr. Russell Morrison, Director
Division of Information and Regulatory Affairs
Office of Policy and Communications, Healthcare Quality
Department of Health and Environmental Control
2600 Bull Street
Columbia, SC 29201

Dear Mr. Morrison:

We have reviewed the proposed revisions to the South Carolina regulations R.61-63, Radioactive Materials (Title A), received by our office on October 28, 2020. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and Regulation Amendment Tracking System Identification Numbers (RATS IDs) 2018-1, 2018-2, 2018-3, 2019-1, 2019-2, 2020-1, and 2020-2, as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on November 13, 2020.

As a result of our review, we have 15 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the South Carolina regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final South Carolina regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other South Carolina regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal:

<https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at (301) 415-0275 (Michelle.Beardsley@nrc.gov) or Monica Ford at (610) 337-5214 (Monica.Ford@nrc.gov).

EDITORIAL COMMENT

STATE SECTION	COMMENT
R.61-63	<p>SC's references to the NRC are used inconsistently throughout R.61-63, i.e., NRC, Commission, US Nuclear Regulatory Commission. In addition, SC does not define the term "Commission."</p> <p>To avoid confusion, SC should use a consistent and defined term for the NRC in its regulations.</p>
