## NRC Schedules Regulatory Teleconference with Entergy Operations

The NRC will hold a regulatory teleconference with officials from Entergy Operations on Dec. 10 to discuss apparent violations of regulatory requirements documented by the NRC during an inspection at the Grand Gulf nuclear power plant in Port Gibson, Miss.

The teleconference will begin at 9 a.m., Central Standard Time and will be open to the public. The public will be able to listen to the meeting and ask questions following the business portion of the teleconference. [Registration](#) is required to access the WebEx meeting link and telephone conference bridge information.

The purpose of the teleconference is to discuss the apparent violations identified in an Oct. 29 inspection [report](#) related to Grand Gulf's radioactive materials transportation program.

No decision on the final safety significance of the apparent violations or any NRC actions will be made at the meeting.
