

## INFORMATION REPORT

JANUARY 14, 2021

SECY-21-0005

FOR: The Commissioners

FROM: Catherine Haney  
Assistant for Operations  
Office of the Executive Director for Operations

SUBJECT: WEEKLY INFORMATION REPORT – WEEK ENDING  
JANUARY 8, 2021

### CONTENTS

### Enclosure

Office of the Chief Human Capital Officer	A
Office of the Chief Information Officer	B
Office of Nuclear Reactor Regulation	C
Office of Nuclear Material Safety and Safeguards	D
Office of the Secretary	E

Signed by Haney, Cathy  
on 01/14/21

Catherine Haney  
Assistant for Operations, OEDO

CONTACT: Sara Mroz, OEDO

Received During the Period of January 4 – January 8

<b>Tracking Number</b>	<b>Requester's Name</b>	<b>Requester's Organization</b>	<b>Request Description as submitted by requester</b>	<b>Received Date</b>
2021-000072	Michael Ravnitzky		A digital/electronic copy of the transition briefing document(s) (late 2020) prepared by NRC for the incoming Biden Administration	01/04/2021
2021-000073	Noah Wass		Any documents, investigation findings, memorandums, or communications that mention Reed College Between the years of 2004 and 2020	01/04/2021
2021-000074	Paul Blanch		A redacted summary of the "flood analysis found in UMAX Final Safety Analysis Report (FSAR) (ML18192B094), Section 4.6.2.5, which was redacted from the public version of the UMAX FSAR," or a clear statement from the NRC staff that the analysis considered a common-mode event considering submersion of the 73 spent fuel VVMs	01/04/2021
2021-000075	Sandra Shepherd	Clifford & Garde, LLP	All documents regarding OI No. 2-2016-042 and EA-19-092 as requested	01/05/2021
2021-000076	Sandra Shepherd	Clifford & Garde, LLP	Documents regarding OI No. 2-2018-033 and 2-2019-015; IA-20-009; IA-20-008; EA-20-06 and EA-20-07 as requested	01/05/2021
2021-000077	Sandra Shepherd	Clifford & Garde, LLP	All documents and information regarding the NRC's evaluation/assessment of allegation No. RIII-20-A-0014, and NRC 09/28/2020 Request for Information (RFI) to Energy Harbor Nuclear Corporation, as described	01/05/2021

Tracking Number	Requester's Name	Requester's Organization	Request Description as submitted by requester	Received Date
2021-000078	Royce Kinniebrew		The name of the last two most recent speakers, facilitators, or trainers for Dr. Martin Luther King Jr. observations and Black History Month observations, and their fee received; and two email messages from the committee, agency point of contact, organizer, and/or program manager in charge of black affairs to the speaker, facilitator, or trainer for the two most recent Dr. Martin Luther King Jr. observances and Black History Month observances, for the headquarters location	01/06/2021
2021-000079	Alexis Gomez	Cardinal Health	The current or updated PET (Positron Emission Tomography) list of all imaging centers that are operating in Puerto Rico (only the PET centers, not SPECT centers)	01/07/2021

**Office of Nuclear Reactor Regulation (NRR)**  
**Items of Interest**  
**Week Ending JANUARY 8, 2021**

**NRC Hosted Public Webinar for Advanced Reactors Rulemaking**

On January 7, 2021, NRC staff held a public webinar (Agencywide Documents Access and Management System (ADAMS) Accession No. ML20353A093) to discuss preliminary proposed rule language for the technology-inclusive Title 10 of the *Code of Federal Regulations* (10 CFR) Part 53 advanced reactor rulemaking, Subpart C, “Requirements for Design and Analysis,” and the facility safety program section of Subpart F, “Requirements for Operation.” Stakeholders also provided feedback on preliminary rule language presented in November (ADAMS Accession No. ML20322A001) on 10 CFR Part 53, Subpart B, “Technology-Inclusive Safety Requirements.” Over 100 stakeholders attended the meeting, including representatives from the Nuclear Energy Institute, United States Nuclear Industry Council, Union of Concerned Scientists, and advanced reactor developers. Stakeholders provided varying perspectives on the preliminary rule language which the staff will consider as it continues to develop the rule. The next step will be to release preliminary proposed rule language related to siting requirements (10 CFR Part 53, Subpart D) to support a planned public meeting in February 2021.

**Staff Approved Licensing Requests for Regulatory Relief Related to the COVID-19 Public Health Emergency**

The NRC staff has reviewed and approved several licensing requests seeking temporary flexibilities to maintain the safe and secure operation of the U.S. nuclear fleet during the pandemic. A summary of approved licensing actions provided during this reporting period are summarized below. A complete list of licensing actions approved by the NRC in response to the COVID-19 public health emergency is available on the NRC public website at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

**Licensing Requests for Regulatory Relief Related to COVID-19**

*Hope Creek Generating Station and Salem Nuclear Generating Station, Units 1 and 2 (PSEG Nuclear LLC)*

Type	Subject	Incoming Request	Decision
Exemption	Select Requirements of 10 CFR Part 73, Appendix B, “General Criteria for Security Personnel”	12/18/2020 ML20353A391	01/05/2021 ML20355A000

**Office of Nuclear Material Safety and Safeguards (NMSS)**  
**Items of Interest**  
**Week Ending JANUARY 8, 2021**

**Calculated Maximum Fuel Element Cladding Temperature: Petitions for Rulemaking; Denial; 10 CFR Part 50; [Docket Nos. PRM-50-93 and PRM-50-95; NRC-2009-0554]**

On January 7, 2021, the NRC published a notice in the Federal Register ([86 FR 1022](#)) denying two related petitions for rulemaking (PRMs), PRM-50-93 and PRM-50-95, submitted by Mark Edward Leyse. The petitioner requested that the NRC amend its regulations for the domestic licensing of production and utilization facilities. The NRC is denying these petitions because existing NRC regulations provide reasonable assurance of adequate protection of public health and safety. The petitioner did not present sufficient new information or arguments to support the requested changes. The dockets for the petitions for rulemaking, PRM-50-93 and PRM-50-95, are closed on January 7, 2021.
