**Week Ending June 10, 2022**

**NRC Holds Eighth Workshop on Vendor Oversight**

On June 1-2, 2022, the staff successfully conducted its 8th Workshop on Vendor Oversight. The workshop was held virtually due to the COVID-19 pandemic and had over 300 participants from 10 countries. Key topics presented during the workshop included: (1) NRC staff's response to the NRC Office of the Inspector General's reports on counterfeit, fraudulent, and suspect items; (2) Nuclear Procurement Issues Corporation audit team & supplier interface before, during, and after the audit; (3) assessment of laboratories owned by the U.S. Department of Energy; (4) commercial-grade dedication inspections at licensees; (5) lessons learned from inspecting during a pandemic; (6) implementation of the Electric Power Research Institute (EPRI) guidance on hybrid and remote assessments; and (7) lessons learned from implementing the EPRI guidance on hybrid and remote assessments.

**NRC Staff hold Second Public Meeting Requesting Feedback for Digital Instrument and Control Systems**

On June 8, 2022, the office of Nuclear Reactor Regulation staff held a second stakeholder outreach meeting to inform and solicit external stakeholders' feedback on the staff's proposed expansion of current policy in staff requirements memorandum to [SECY 93-087](#), regarding potential common-cause failures in digital instrument & control systems with the use of risk-informed approaches. The NRC staff made a formal presentation in the meeting. The staff's presentation is included in ADAMS Accession No. [ML22155A001](#). The stakeholders' feedback will support staff's development of a Commission Paper to expand the current policy regarding digital instrumentation and control common- cause - failure. The staff's policy paper to the Commission is expected in July 2022.
