SUBJECT: ARKANSAS PROPOSED REGULATIONS TO RATS IDS 2015-3, 2015-4,
2019-2, 2020-1, 2020-2, 2020-3, 2021-1, 2021-2, 2022-1 AND 2022-2

Dear Bernard Bevill:

We have reviewed the proposed revisions to the Arkansas State Board of Health's Rules for Control of Sources of Ionizing Radiation received by our office on May 10, 2023. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of Regulation Amendment Tracking System Identification Number(s) (RATS ID) 2015-3, 2015-4, 2019-2, 2020-1, 2020-2, 2020-3, 2021-1, and 2021-2 as identified in the enclosed State Regulation Status (SRS) Data Sheet.

On August 14, 2023, the NRC sent you a letter providing comments on the State of Arkansas' proposed regulations, and on August 21, 2023, representatives from the State of Arkansas and the NRC held a meeting to discuss them. During the meeting, the NRC requested that Arkansas provide a written response to NRC's comments, and on August 24, 2023, the State of Arkansas promptly submitted its response. The NRC reviewed the response, and accordingly issued a revised version of the previous August 14th correspondence. Following issuance of NRC's revised letter to you dated September 27, 2023, regarding Arkansas Proposed Regulations issued September 27, 2023, the State of Arkansas submitted a request for additional clarification concerning one of NRC's comments. After considering this request, the NRC is now issuing this additional revision to our August 14, 2023 letter and September 27, 2023 correspondence.

As a result of our review, we have two compatibility comments and two editorial comments that have been identified in Enclosure 1. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Arkansas regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Arkansas regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final

changes, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet in Enclosure 2 summarizes our knowledge of the status of other Arkansas regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal:

<https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the review, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact my staff at AgreementStateRegs.Resource@nrc.gov.

Sincerely,

Signed by Giantelli, Adelaide

					clarify the language, revise " <u>the material</u> " to " <u>the radioactive material</u> ".
2	RH-102	30.3 40.3 70.3	NA	C	<p>AR did not specifically include the term "dispose" in the list of activities requiring a license in RH-102.a. The equivalent regulation in the Conference of Radiation Control Program Directors (CRCPD) Suggested State Regulations includes the term "dispose" in brackets, which indicates that it is optional to adopt in this specific provision so long as it is adopted elsewhere in the State's regulations.</p> <p>Consistent with this designation, AR has adopted this requirement in another provision (Section 3). However, the NRC recommends explicitly including the term "dispose" in RH-102.a because it would clarify for regulated entities and the public that a license is required for this activity, like the other activities listed, without having to refer to other provisions in the state's regulations.</p>
