DOMINION ENERGY NUCLEAR CONNECTICUT, INC.
MILLSTONE POWER STATION UNITS 2 AND 3
INTENT TO PURSUE SUBSEQUENT LICENSE RENEWAL

This letter provides advance notification that Dominion Energy Nuclear Connecticut (DENC), on behalf of itself, Green Mountain Power Corporation and Massachusetts Municipal Wholesale Electric Company, intends to submit subsequent license renewal applications for Millstone Power Station Unit 2 (MPS2) and Unit 3 (MPS3).

The first renewed Operating Licenses for MPS2 and MPS3 were issued on November 28, 2005, and will expire at midnight on July 31, 2035, and November 25, 2045, respectively. DENC intends to submit separate applications for subsequent renewal of the MPS2 and MPS3 renewed Operating Licenses in accordance with 10 CFR Part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants," by the end of the 4th quarter of 2027.

This notification is consistent with NRC Regulatory Issue Summary (RIS) 2009-06, "Importance of Giving NRC Advance Notice of Intent to Pursue License Renewal" (ADAMS Accession No. ML090540789). As discussed in RIS 2009-006, DENC will inform the NRC of any changes to the anticipated schedule for filing the subsequent license renewal applications for Millstone Power Station to facilitate NRC efforts to plan for processing of the subsequent license renewal applications.

If there are any questions regarding this submittal or if additional information is needed, please contact Mr. Keith Miller at keith.j.miller@dominionenergy.com.

Sincerely,

A handwritten signature in black ink that reads "James E. Holloway".

James E. Holloway
Vice President - Nuclear Engineering and Fleet Support
