I. SECY-14-0104 – Petitions to Suspend Reactor Licensing Decisions and Reactor License Renewal Decisions Pending Issuance of “Waste Confidence” Safety Findings

The Commission approved a Memorandum and Order responding to substantively identical petitions filed in multiple dockets before the Commission and the Atomic Safety and Licensing Boards to suspend final licensing decisions, together with a new contention and related motions. These filings pertain to the recently issued Continued Storage Rule and accompanying generic environmental impact statement. The Memorandum and Order consolidates these filings before the Commission and sets a briefing schedule.

(Subsequently, on October 7, 2014, the Secretary signed the Memorandum and Order.)
